WALTER A. WOOD

NEW CENTURY BINDER

This binder has a world-wide reputation. In every grain growing country under the Sun it is said to be the best yet by all who use it or see it work. The features that appeal most to its users are:—lightness of draft; handiness of operation; durability of construction; ability to do perfect work in any kind of grain; accuracy and sure work of knotters; absence of neck weight and side draft. The New Century is the latest type of binder, made by the people who gave the world its first successful binder, and now give it its most successful one—a binder that

will do work no other machine can do.

It is constructed on principles and from materials that insure more work, better work, longer life and reduced repair bills with less loss of time. We'd like to send you our free catalog, describing it in full before you decide on which binder to buy.

WALTER A. WOOD MOWERS

Are Different From All Others

When the late Walter A. Wood built his first mower in 1862 it was upon a principle entirely different from any other. That same principle today distinguishes our mowers from all others. It is the "floating frame" described so fully in our catalog. All manufacturers of mowers admit that the "direct under-draft" principle is the correct one—but they can't use it because genuine underdraft is possible only with the "floating frame" construction which is exclusive to Walter A. Wood Mowers. We feel justified in asserting that our mowers are: the easiest running; lightest draft; handiest to operate; least expensive to keep in repair and longest lived. The mower that leads on these points is the mower it will pay the farmer to buy. There are many other good points fully illustrated and described in our Catalog. Write for it today.

GREAT LOOM END AND CLEARANCE SALE

AT

HARRY SIMON'S

Wait For It.
Nothing Like this
Sale Ever Seen
in the Good Old
City of Paris...

OUR buyers were on the ground with a great syndicate who bought the entire stock of Loom Ends from several of the largest mills of the country. These goods were bought at auction for spot cash. We propose to offer such unheard of buying chances during this sale that will make competition tremble and buyers smile. We have plenty of Loom Ends suited to your ideas. There are plenty of long pieces in nice colors, shades and patterns. You will find just what you want cheaper than you expect. If you imagine Loom Ends are a lot of junk you will be agreeably surprised.

What is Meant by
Loom Ends?
Where Do They
Come From?
We Will Tell You.

Loom Ends are goods that fall short in length of the requirements for export purposes, but identical in quality with the first grades, yet still not to be classed with the regular goods, because they are wanting in length, or a slight imperfection in the weave, careless stitching in the underwear or a thread dropped in hosiery. These are Loom Ends. None of these slight flaws hurt the wear or the looks of the goods to the customer, but they prevent mills or factories from selling them at a profit. The enormous stock of Loom Ends we have purchased for this sale are all new goods, fresh from the looms, and are offered today at Loom cost. You will never know what Loom End Cost is if you fail to attend this sale, for the prices given are but an inkling of the money-saving opportunities offered. You pay two or three times the price for the same goods at other stores.
